# ABOUT ADENOR GLOBAL

## Connecting Quality Products with Global Markets

ADENOR GLOBAL is an international trade and business solutions company focused on connecting selected products with customers across global markets. We combine customer-focused communication, commercial coordination and export process management to provide reliable and efficient solutions for our international partners.

In agricultural products and plant nutrition solutions, our role is to understand customer requirements, coordinate the appropriate product portfolio and manage the commercial process from inquiry to shipment.

### International Trade

Global customer and market-oriented commercial development.

### Product Portfolio Coordination

Selected products and solutions according to customer requirements.

### Quotation & Commercial Management

Product, packaging, quantity and Incoterm-based quotation coordination.

### Export & Shipment Coordination

Support throughout documentation, logistics and shipment planning.

## HOW WE WORK

1. Customer Requirement
2. Product Selection
3. Commercial Offer
4. Order Coordination
5. Shipment

## WHY ADENOR GLOBAL

- Customer-focused approach
- Clear commercial communication
- Selected export portfolio
- End-to-end coordination

# Portfolio Overview

## Magnesium Sulphate Solutions for International Markets

7 selected grades across granular, powder and crystal forms.

| Product Group | Grade Type | Key Analysis | Primary Application |
|---|---|---|---|
| **Granular + B + Mn + Zn** | Multi-micronutrient grade | MgO 16% • $SO_3$ 32% • Zn 0.2% • B 0.1% • Mn 0.1% | Plant nutrition |
| **Granular + B + Mn** | Multi-micronutrient grade | MgO 12% • $SO_3$ 30% • B 0.5% • Mn 1% | Plant nutrition |
| **Granular + Zn** | Micronutrient grade | MgO 15% • $SO_3$ 30% • Zn 0.7% | Plant nutrition |
| **Granular Magnesium Sulphate** | Standard granular grade | MgO 17% • $SO_3$ 33% | Soil application |
| **Kieserite Powder** | Fine powder | MgO 25% • $SO_3$ 45% | Agriculture / fertilizer blends |
| **Magnesium Sulphate Powder** | Fine powder | MgO 29% • $SO_4$ 57% | Agriculture / technical use |
| **Crystal Magnesium Sulphate** | $MgSO_4 \cdot 7H_2O$ | MgO 16% • $SO_3$ 32% | Foliar / drip / formulations |

## REQUEST A QUOTATION

1. Select grade
2. Share quantity
3. Share destination country / port
4. Share preferred Incoterm
5. Send inquiry to ADENOR GLOBAL

# Granular Magnesium Sulphate

## Micronutrient-Enriched Grades – Part 1

Water-soluble granular grades combining magnesium and sulphur with selected micronutrients.

### $MgSO_4$ + B + Mn + Zn

Multi-Micronutrient Granular Grade

| TYPICAL ANALYSIS | |
|---|---|
| MgO | 16% |
| $SO_3$ | 32% |
| Zn | 0.2% |
| B | 0.1% |
| Mn | 0.1% |

**USE**

Balanced magnesium, sulphur and micronutrient support for plant nutrition programs.

### $MgSO_4$ + B + Mn

Boron + Manganese Granular Grade

| TYPICAL ANALYSIS | |
|---|---|
| MgO | 12% |
| $SO_3$ | 30% |
| B | 0.5% |
| Mn | 1% |

**USE**

Designed for applications requiring combined magnesium, sulphur, boron and manganese nutrition.

Water soluble

Granular form

Magnesium + sulphur

Micronutrient support

GLOBAL AGRICULTURE STRONGER TOMORROW

# Granular Magnesium Sulphate

## Core Granular Grades – Part 2

Selected granular grades for standard magnesium sulphate supply and zinc-enriched nutrition support.

TRUSTED FERTILIZER SOLUTIONS FOR A SUSTAINABLE TOMORROW

### $MgSO_4$ + Zn

Zinc-Enriched Granular Grade

**TECHNICAL ANALYSIS**

| | |
|---|---|
| MgO | 15% |
| $SO_3$ | 30% |
| Zn | 0.7% |

**USE**

Supports magnesium, sulphur and zinc nutrition where zinc supplementation is required.

### Granular Magnesium Sulphate

Standard Granular Grade

**TECHNICAL ANALYSIS**

| | |
|---|---|
| MgO | 17% |
| $SO_3$ | 33% |

**USE**

Suitable for soil application and general plant nutrition programs.

- Water soluble
- Granular particles
- Soil application
- Balanced magnesium + sulphur

# Powder Magnesium Sulphate Solutions

## Kieserite & Powder Grades

TRUSTED FERTILIZER SOLUTIONS FOR A SUSTAINABLE TOMORROW

Fine powder magnesium sulphate grades for agriculture, fertilizer blending and technical use.

### Kieserite

Fine Powder Grade

TYPICAL ANALYSIS

| | |
|---|---|
| MgO | 25% |
| $SO_3$ | 45% |

USE NOTE

Suitable for agriculture and fertilizer blend applications requiring concentrated magnesium and sulphur supply.

### Powder Magnesium Sulphate

Fine Powder Grade

TYPICAL ANALYSIS

| | |
|---|---|
| MgO | 29% |
| $SO_4$ | 57% |

USE NOTE

Suitable for agricultural and selected technical applications.

# Crystal Magnesium Sulphate

## Water-Soluble Crystal Grade

TRUSTED FERTILIZER SOLUTIONS FOR A SUSTAINABLE TOMORROW

Crystal magnesium sulphate for foliar applications, drip irrigation and water-soluble fertilizer formulations.

**Magnesium Sulphate Heptahydrate**

$MgSO_4 \cdot 7H_2O$

| | |
|---|---|
| MgO | 16% |
| $SO_3$ | 32% |

- Foliar application
- Drip irrigation
- Water-soluble fertilizer formulations
- Technical applications

This crystal grade is designed for high-solubility applications where magnesium and sulphur support are required as part of balanced nutrition or formulation programs.

# Applications & Request a Quotation

## How to proceed with your inquiry

1. Select the required grade.
2. Share the requested quantity.
3. Share **destination** country and port.
4. Share preferred Incoterm.
5. Send inquiry to **ADENOR GLOBAL.**

## Applications

- Agriculture
- Fertilizer formulation
- Foliar nutrition
- Drip irrigation
- Technical applications

## Request a Quotation

Share the following information for a quick response:

| | |
|---|---|
| Product grade | |
| Quantity | |
| Destination | |
| Packaging preference | |
| Incoterm | |
| Additional documentation requirements | |
